Bsc Graduate, Kerala University

2020-2023

Kerala, Trivandrum

Higher Secondary Education

2018-2020

Kollam, Kerala

TECHNICAL SKILLS

- Languages : JavaScript & TypeScript
- Front end : Angular & React.js
- Back end : Node.js, Express
- Version control system : Git & GitHub
- Database : MongoDB
- Web Technologies : HTML, CSS, Bootstrap
- IDE : Visual studio code
- Testing tools : Thunder client, Postman
- Others : Leadership, adaptability, quick learner, problem-solving, critical thinking

LANGUAGE

- English
- Malayalam

EXPERIENCE

MEARN STACK WEB DEVELOPMENT EXPERT 2024 at LUMINAR TECHNO LAB

During my six-month internship at Luminar TechnoLab in Eranakulam, I worked as a MEARN stack developer. Throughout this period, I completed numerous projects primarily focusing on React. For the frontend, I utilized HTML, CSS, JavaScript, React, Angular, Node.js, and Express.js while for the backend, I employed MongoDB.

PROJECTS

BANK APPLICATION (MEAN)

This Application involves building a full-fledged banking application using Angular, covering various aspects of banking services and user management. It demands a strong understanding of Angular, TypeScript, and backend technologies, as well as knowledge of banking systems and security measures.

• Technologies :

Frontend: Angular, HTML, CSS, TypeScript

Backend: Node.js, Express, MongoDB

APIs: RESTful APIs for secure data exchange

STYLE GURU (MEAN)

- Technologies used: MongoDB, Express, typescript, CSS, Bootstrap, node.js, Angular

OMNI FOOD APPLICATION (MERN)

This project involves building a comprehensive food application using React, incorporating various features and technologies to create an engaging user experience. It requires knowledge of React, Redux, and backend technologies, as well as an understanding of food-related data and APIs.

• Technologies

Frontend: React, Redux, React Router

Backend: Node.js, Express, MongoDB

MEDIA PLAYER

Technologies used:

React.js, JavaScript, CSS, Bootstrap
